IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re Application of: Yechiel Shai et al.	Confirmation No.: 8544
Application No.: 10/560,727	Patent No.: 7,671,011 B2
Filing Date: October 10, 2006	Patent Date: March 2, 2010
For: ANTIMICROBIAL AND ANTICANCER LIPOPEPTIDES	Attorney Docket No.: 85189-16300

REQUEST FOR CERTIFICATE OF CORRECTION UNDER 37 C.F.R. § 1.323

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

It is requested that a Certificate of Correction be issued in connection with the above-identified patent correcting the errors listed on the accompanying Form PTO-1050. The corrections requested are as follows.

On the Title page, Item (57) **ABSTRACT**, line 2, change "acid The" to -- acid. The --.

This request is being made pursuant to 37 C.F.R. § 1.323 to correct errors of a clerical or typographical nature and do not involve changes that would constitute new matter or require reexamination. A fee of $100 is believed to be due for this request. Please charge the required fees to Winston & Strawn LLP Deposit Account No. 50-1814. Please issue a Certificate of Correction in due course.

Respectfully submitted,

Date: June 17, 2010

Allan A. Fanucci, Reg. No. 30,256

CERTIFICATE OF CORRECTION

PATENT NO. : 7,671,011 B2

APPLICATION NO. : 10/560,727

DATED: : March 2, 2010

INVENTOR(S) : Shai et al.

It is certified that an error appears or errors appear in the above-identified patent and that said Letters Patent is hereby corrected as shown below:

(57) **ABSTRACT**

Lipophilic conjugates comprise a peptide coupled to a fatty acid. The peptide comprises at least two positively charged amino acid residues; the peptide after conjugation to the fatty acid possessing antibacterial, antifungal, and/or anticancer activity higher than prior to conjugation. The lipophilic conjugates are suitable for treatment of infections caused by pathogenic organisms such as bacteria and fungi. The lipophilic conjugates are also suitable for sanitation, as disinfectants, or for food preservation.
